The News.

The steamship *Arabia* arrived at New York on Saturday morning. The political and commercial news from Europe is most especially important. Money is reported easy, and rates unchanged, and breadstuffs generally dull. Members of the Derby Cabinet were being re-elected without opposition. The subject of holding a great exhibition in London in 1861 is being considered. The condemned French conspirators have not yet been executed. The French Bourse was depressed. Cornith was laid in ruins by an earthquake, and 30 lives lost. A terrible conflagration in Constantinople consumed 300 houses. There had been considerable falls of snow and heavy gales in England. Dr. Livingstone and his companions have departed on the African exploring expedition. The *Journal des Debats* places all the laurels won at the capture of Canton upon the brows of the French. The steamer *Harmonia*, from Hamburg to New York was detained for two weeks on account of ice.—The London Money Market continued quiet and easy, but the Bank of England had not attained its rates. Commercial payments falling due on the 4th were generally promptly met.

At the Erie Municipal lection the Anti Lecompton Democrats triumphed. Their whole ticket was elected by a large majority.

The Anti Lecompton Democratic, and Republican members of the Kansas House Select Committee will publish their reports—the former today, and the latter to morrow. The attention of Congress is still principally occupied with the Kansas question. Senator Foote, of Vermont, and Wilson, of Mass., spoke in the Senate on Saturday against the Lecompton iniquity. The New York produce market had improved considerably on Saturday.

Flour was 5c higher and in better demand.—The request for wheat was also more active and prices easier. Our own market was not active on account particularly of the bad state of the roads. In another column we publish our weekly review of commercial and financial affairs. We had a heavy rain storm on Saturday morning, but towards evening the indications were favorable for fair weather.

Another Contempt Case—Quite an Excitement in the Assembly.

Last evening Moses M. Strong was brought before the Assembly for contempt in refusing to be sworn before the Investigating Committee. His case was argued *pro* and *con* by various members, on the point to give him a hearing, which the Assembly refused, by eight majority, and as the Speaker rose to put the question on the motion of Mr. Knowlton, to declare him guilty of contempt, Mr. Strong, who was in one of the members' seat, arose and said:

Mr. Speaker—I am an American citizen—

Rap—rap went the Speaker's gavel.

The Speaker—Sergeant-at-arms, take that man into the Post-office immediately.

Mr. Strong tried to proceed, but the Sergeant-at-arms approaching him, he said he would yield to "superior force, but not to reason," and recommended the officer to the Post-office.

The Assembly then declared Mr. Strong guilty of contempt by a large majority.—*Madison Patriot*, Saturday.

Mr. STRONG, it is reported, is now a tenant of the Dane County Jail, for the contempt above noticed. He positively refused, it is said, to testify before the Committee.

TWO PERSONS DROWNED.—On Thursday afternoon our village was thrown into a state of excitement by the news that a girl about 6 years old, daughter of a Mrs. Terril, residing here, had fallen from a plank which was used for foot passengers, into Sauk Creek, at the south east of the store of Hunt & Brothers, and carried away instantly. Crowds of people immediately collected to the spot and sought in vain for the body; a number rushed to the mouth of the river where it empties into the lake, and got a boat to ply around, but in vain.

When the excitement was at its highest pitch a sealwart sailor named Patrick Hartry, walked deliberately into the lake until he got fairly into the eddy, caused by the rushing of the creek, now much swollen, into the lake, the poor fellow was immediately capsized and carried down by the under current to rise no more. He perished within sight of his companions, who were unable to render him the slightest assistance. The boat was kept plying around the scene for some time, but no trace of the bodies could be discovered.—*Ozaukee Advertiser*, March 20.

The Colorado Surveying Expedition.

The following extracts of a letter from one of the party under Lieut. Ives, giving some particulars of the Expedition, will be found interesting. The letter is dated, "U. S. Steamer Explorer, Colorado River, January," and is written to a gentleman of this city, who politely places it at our disposal. The writer says:

"You will be glad to hear that we are getting along swimmingly with our expedition. All our party are at present on the steamer, and we are pushing up towards the head of navigation as rapidly as possible. We have now reached a point 200 miles from the mouth of the Colorado; and, although the water is lower than it has been for many years before, have demonstrated the practicability of navigating the river with light draft steamers, at least to this place. The quantity of water flowing in the channel is quite as great here as at Fort Yuma, and its navigation quite as easy as there. We are to day fifty miles below the Mohave villages, and should no accident happen to us, shall soon have passed all that part of the river of which anything is really known to the whites.

There is at present every prospect that the expedition of Lieut. Ives will open a new avenue of approach to the Salt Lake region, and to all the country drained by the Colorado river. In scientific matters we are endeavoring to make a "clean sweep," and although, so far, each department has exhibited an unexpected sameness, the materials collected will include much that is new and interesting."

Dubuque and Pacific Railway.

This road will be the first one finished through Iowa. It is on a main thoroughfare of travel and through an excellent section of country. A late number of the Independence *Civilian*, gives us some interesting particulars. The road was opened to Dyersville on the 11th of last May, and its earnings up to the 31st of December, were $58,670, which is at the rate of $2,696 a mile per annum, for thirty miles. The road was opened for business from Dyersville to Nottingham, a distance of eight miles, on the 22d of December. From Nottingham to Manchester, ten miles, it is nearly ready for the rails, from the place to Independence, twenty-three miles farther west it is about a third graded, thence to Cedar Falls it is not more than a fourth graded. The iron is ready for laying the track to Manchester, which is forty seven miles from Dubuque. The company think the completion of the road to that place will double its receipts. The sum required to do it and to extend the track to Independence next fall, is estimated at two hundred and fifty thousand dollars.

THE OLD "ERIE BANK."—Chas. M. Reed, in a letter to the Erie Observer contradicts the statement that this bank has now over $75,000 in circulation. According to the statement of the late Cashier of the bank, C. McSparron, Esq., all the bills issued by the bank have been redeemed, except $2,000—of which amount Mr. Reed holds $1,780—so that only $4,880 remains to be redeemed. The bills of this bank are always redeemed on presentation at the banking house of Wm Curry & Co., or when presented to Chas. M. Reed.

MANAGEMENT OF FIRES.—The management at the fire on Main street, in the Third Ward, last Thursday, has elicited a variety of comment in the public press, and "A Fireman," in the *Wisconsin* of Saturday, gives it as his opinion, that Engine Co. No. 6 and 1, which were the first on the ground, ought to have gone to the river and taken suction there, instead of where they did. This is unquestionably a mistake. No. 6 took suction in a cistern on Huron Street and No. 1 in a pond on Milwaukee Street, each within easy reach of the fire. No. 1 kept her stream steadily playing in the rear of Seaman & Wing's brick block and upon the burning buildings in the alley, from the moment her brakes commenced moving till ordered to "take up," and during all that time had plenty of water, and did excellent service. No. 6 played upon the fire till the cistern was exhausted, when she went into one of the lines from the river. Had those two machines gone to the river *first*, much more time must have elapsed before any water could have been thrown on the fire. In our judgment, the only mistake made was in not ordering the pipe of No. 6 into the alley, at the start to play from the rear, on Concert Hall and Seaman's building; but this was owing doubtless to the very general belief that Seaman & Wing's building was on fire inside and must be saved first.

We concure entirely with the *Wisconsin* in its opinion of Mr. FILLMORE'S merits as a Chief Engineer, and heartily assent to the tribute paid by its correspondent, "a Fireman," to the character and services of the present Chief, Mr. SCHURZ. But it is not always an easy matter for the best and most experienced officer, in the crisis of a fire, and surrounded by clamorous property-owners and insurance agents, each looking out for himself, to decide instantly on the best course. Those who will go and look at the ruins *now*, must, after all, admit that the fire was well stopped, though it might have been stopped sooner.

TRIAL OF LATTA'S NEW ENGINE AT ST. LOUIS.—The new steam-fire Engine John M. Wimer, built by Mr. Latta of Cincinnati, for St. Louis, was tried in the latter city on Monday last. The *News* says:

Her performance was perfectly satisfactory, and is said to have surpassed that of any of her predecessors on a first trial. In five minutes after fire was lighted under her boilers, she was throwing a stream twenty five feet, through one hundred feet of hose, with an inch and an eighth nozzle. In five minutes more, she threw, under same circumstances, two hundred feet. She threw two seven eighths inch streams, one hundred and eighty feet. She is supplied with a thousand feet of hose.

We must have one of these steam fire engine for Milwaukee. Of course, it would be situated on one of the river streets (say East Water St.) and would not only be of great service in extinguishing fires in that locality—where the improvements are the most valuable—but should a fire occur on either side of the river, several blocks off, the steam engine, taking suction at the river, could supply one, or two of our hand-engines, stationed half way up the hill. Those who recall the fact that all through the First, Second, Third, Fourth and Seventh Wards, there is hardly any place where water can be obtained, in case of fire, except from the river, will see the force of this suggestion.

THE LADIES' FESTIVAL.—The Ladies' Festival and Old Folks' Concert, at Albany Hall, on Friday night, was quite an interesting entertainment. Although it was a repetition of their previous exhibition, it was fully as well attended, and all who were present appeared to be greatly amused with the performances. Some of the tableaux scenes were well represented, and so exceedingly humorous, that they excited not only loud applause, but general and hearty laughter. The "Old Folks' Concert," too, was a particularly interesting feature. The execution of the musical parts was well done, and the characters represented, sustained in a manner that would have been creditable to more experienced performers. This part, however, was "strung out," a little too long. Too much of a good thing is not agreeable. The audience became weary, and in consequence did not enjoy it as much as they would had it been judiciously abridged. Upon the whole, however, very general satisfaction was expressed, and the ladies merit unbounded applause for their exertions in a good cause.

THE OPERA TO-NIGHT!—Our readers need hardly be reminded that the sparkling opera of "the Magic Flute" is to be performed *this* evening by our Milwaukee Musical Society, at Young's Hall. The Society have spared neither time, labor, or expense, in getting up this Opera in the best style. New costumes and new scenery have been provided; additions and improvements made in the Orchestra and Chorus; and great pains taken with the rehearsals. The leading parts will be sustained by the best artists in the Society. Indeed we do not doubt that the whole performance will be a great success. Those wishing reserved seats had better apply without delay at Niedecken's, since the number of seats and tickets is limited and a large proportion already disposed of.

IN LUCK.—Two brothers named Daley, well-to-do farmers in the town of Granville, have been the lucky recipients of a snug little fortune each, from a deceased brother in Australia. The brother who leaves them his property, it seems was transported from Ireland to Australia some 33 years ago, for the term of seven years. Before the term of his transportation had expired, he got into a lucrative business, and he finally concluded to remain there, and before his death he amassed quite a fortune, which he willed to his two brothes in this State and a sister in Ireland. Mr. Edward Daley has just received a letter from his sister, informing him of his good fortune. Bishop Hennl, of this city, has also received a letter to the same effect from the Bishop of Limerick, Ireland, to whom the deceased brother entrusted the management of his will. His property consists of a large amount of landed estate in Australia, and $9,000 in cash, to be divided between the two brothers and sister.

A SKILFUL SURGICAL OPERATION.—A few days ago, says the *Wisconsin*, a little girl four years of age, daughter of Mr. Gaeder, a hardware merchant in East Water street, unfortunately had her eye ball pierced by a pen-knife. Part of the contents of her eye escaped, and the *iris* protruded from the eye, and was strangulated.—After being put under the influence of chloroform, the *iris* was restored to its normal position, and the wound closed by Dr. Seibert, assisted by Drs. Wolcott and Fussel. The child will now recover its sight without deformity.—This is an interesting case, as many eminent surgeons regard the operation as impracticable.—Quite an incision was made into the eye, and yet it is now healed up so that she has already got the use of her eye again.

HARPER FOR APRIL.—KEMPSHALL, of 175 East Water street, sends us Harper's Magazine for April. It is unusually rich in reading matter and graphic illustrations.

AN UNJUST CHARGE AGAINST THE POLICE.—The *Sentinel* this morning refers to the arrest of a certain individual at the meeting on Thursday evening, as an abuse of authority by the Police. This charge is without any foundation.—The individual arrested was evidently intoxicated, and went swaying to and fro through the crowd, yelling at the top of his voice, as can be shown by every person standing in his vicinity. We would be the last to sustain any abuse of power by police officers, but we think, in this instance, their action was entirely just.—*Free Democrat, Saturday.*

The best possible proof that the arrest in question was "an abuse of authority" and that the Police *knew* it, is the excuse made by them to the person arrested.

They pretend now that it was no "arrest," but simply a friendly interference; and that they took the individual referred to out of the Hall, because they had ascertained that a number of men were in the meeting, *with clubs under their coats*, and disposed for a row, and that they feared some of them might attack him, as he was crying for the "question," while Ald. Hadley was attempting to speak. Now if such *were the fact*, it was the duty of the Police to have arrested the club men, and not peaceable citizens. As to the statement that the person referred to was "intoxicated," we are assured by numbers of his friends who were with him at the time, that it is unfounded.

THE CHARTER AMENDMENTS—NO PARTY QUESTION.—The insidious attempt of the *News*, Ald. HADLEY and others to give a partisan cast to the Charter Amendments question, needs no other reply than this fact—that the Chairman of the Committee who reported the Amendments last Thursday night, as well as the Chairman of the Committee, appointed to proceed to Madison and urge their immediate passage by the Legislature, is WM. P. LYNDE, the *News'* favorite candidate for Mayor of Milwaukee. Should Mr. LYNDE be nominated by the Democratic City Convention to-day, it may be fairly taken as an endorsement, by them, of the proposed Amendments.

HON. D. E. CAMERON.—This gentleman, who has been absent during the session, till the present time, on account of severe illness, made his appearance in the Assembly Chamber yesterday, to the great delight of his numerous friends. We welcome him to the field of his duties.—*Madison Patriot.*

Mr. CAMERON is the Assemblyman from the Fourth Ward of this city, but has been confined during the whole winter to a painful illness, which he bore with great fortitude and patience. We are right glad to hear that he is so far restored to health, as to be able to take his seat in the Assembly.

DEMOCRATIC WARD CAUCUSES.—The regular (Lecompton) Democracy held their Ward Caucuses, Saturday afternoon, to elect Delegates to the City Convention which meets at 2 P. M. today, to nominate candidates for Charter Officers. In several of the Wards the voting was a perfect farce; a few having already "cut and dried" the proceedings, and controlling the matter to suit their own particular views. In the Third Ward the polls were "blocked," and hundreds went away, after vainly trying to vote.

POLICE COURT SATURDAY.—Cornelius Shehan, and Patrick O. Driscol, were fined $1 each for being intoxicated.

Timothy Kelley and Barney Guynon were fined $10 each for committing an assault and battery upon Patrick Maher.

A. Allerding was fined $1 for driving on the side walk.

RACINE CITY DIRECTORY—1858-9.—We have received from the publishers a copy of this work. It is a very neat looking volume of some 180 pages, has been carefully compiled, and is believed to be full and accurate. Messrs. SMITH, DE MOULIN & CO., are the publishers.

COMMON COUNCIL.—A special meeting of the Common Council is called for this evening.

LARGE SALE OF LUMBER.—At the Assignees sale of pine lumber in Horicon on the 12th inst., C. D. Nash, of Milwaukee, bought two million feet, at ten dollars per thousand—as it runs.—The sale amounts to twenty thousand dollars, which is the largest lumber sale there has been made in Wisconsin within the past six months, if not in a year. Those who prophecied lumber was worth nothing, and would not bring over from six to eight dollars per 1000, will make a note of it.—*Horicon Argus.*

☞ We cannot refrain from calling the attention of our readers to an advertisement in this day's paper of the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it is professed to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been discovered by human ingenuity. We have seen it arrest threatened baldness and restore to the head its original profusion of natural and glossy hair, and when the locks have become prematurely tinged with gray, we have seen it, like a magic wand, restore the tokens of youth and health. The distinguished propriety of this, we might truly say, miraculous "Restorative," is that it gives to the locks of those who need it, the same hue of which they were in youth, thus acting in strict compliance with the order of the first and greatest of all makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—*Covington (Ky.) Penpie's Friend.*

COMMERCIAL.

Weekly Review of our Markets.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, March 22, 1 P. M.

Received by R. & M. R. R., March 20—164 bbls flour, 2,517 bus wheat, 250 do oats, 136 do barley, 125 do potatoes, and 659 lbs hides.

By Mil. & Wis. & R. R.—1 car load wheat, 181 bbls flour, 75 bus barley, 220 bus oats, 14 sacks rags, 1 obl egg, 0 bbls pot ash.

The receipts of Railroad during the past week have been rather meagre, and as some of the roads have failed to furnish us with them regularly, we are obliged to omit our table of receipts this week.

We have no particular feature of interest to notice, since our last weekly review, in commercial affairs. The produce markets through the country have undergone a slight depression; we do not look upon this as at all discouraging, and it must evidently be only temporary. The early breaking up has rendered the roads all through the country almost impassable, and this alone would cause considerable inactivity. This early opening of spring, however, we look upon as one of the most favorable circumstances that could happen for reviving the business of the whole Western country. It is reasonably expected that the opening of navigation will work a vast improvement in every department of trade. Upon this subject an experienced contemporary very prudently remarks, however, that "the general expectation that there will be a revival of trade upon the opening of navigation and that the event will mark the beginning of a period of prosperity, is doubtless well founded. But there are thousands who look forward to a season prolific in adventure, and as fruitful in speculative enterprise, as any one which preceded the crash of 1857. Such are doomed to disappointment. Though there will be much money made in the year to come, and though all legitimate business, prudently managed, will yield a handsome percentage upon the capital invested, the men of money who unite enterprise with caution and industry are those who will reap the richest rewards. The time for slap-dash operations of bold and reckless men who have everything to gain and nothing to lose—who strive to attain riches by a sudden leap, and who are no poorer if their plans miscarry, is certainly past, and years must elapse before it will return. The desire for adventurous speculation may be as strong as ever, but the confidence which makes such speculation possible has received a shock from which it will not soon recover. Pains taking industry and care for small-saving must now be the rule; and he who does not observe it will be unusually lucky if he escapes ruin."

Financial matters in the East have improved somewhat during the week, although the stock market has fluctuated considerably, and at the close of the week appeared to be tending downwards. The New York City banks continue to be flooded with specie. The actual deposits have reached an enormous amount, ensuring an easy money market for many months to come. The news from Europe last week was not of an important nature commercially, and it has had little effect upon our markets.

In the early part of the week our produce market was quite active, and prices of Spring Wheat advanced considerably. Toward the close of the week, however, there was a slight depression exhibited in the market, and both Spring and Winter Wheats declined trifling. Our quotations, however, are not far at than those of our last review, and we do not anticipate that prices will range lower. It is not safe to speculate upon the future state of the market at any time. Though we must say, that we disagree with the opinions expressed by some of our Eastern cotemporaries that the prices of Wheat will range lower before harvest is over, than they are at the present time. There is no ground for such supposition, but rather the opposite. Our river and harbor are entirely free from ice, and ship owners are making active preparations for the resumption of navigation. Vessels are preparing to take in cargoes of grain and flour. As yet we have heard of but one or two charters. The schooner *Milwaukee Belle* is chartered to take a cargo of wheat and flour to Buffalo for $1,450. Holders are offering 50c on flour to Buffalo, but vessel owners decline accepting. The number of barrels of flour in store in this city at the present time is about 90,000, and the number of bushels of wheat about 700,000. The number of hogs packed here during the past Pork season was about 10,000, and the average weight about 250 lbs. In the Flour market there has as yet been little done. Flour, for the most part, is still in the first hands. But few heavy sales have been made. Holders maintain their figures, and buyers decline coming up to the scratch. In other articles of produce we have nothing especially interesting to notice, this week. Oats and Rye are in better demand, and prices tending upwards.

The weather during the past week has been very mild, and Spring has come upon us with a rush. It has rained a great deal, and the ground is greatly broken up, which has interfered materially with the travel.

Our quotations this week are as follows:

FLOUR—We have no heavy transactions to note. The demand to supply the retail trade has not been active.—Spring extras are quoted at $5,12½@5,50 for country and city brands; and $5,75@6,25 for winter wheat do do.

WHEAT—There is a fair request for spring wheat at last week's quotations. There is little on the market, and receipts are very moderate. On Saturday the demand was not active, and prices declined a little from Friday's quotations. Extra club wheat we quote to-day at 89@90. Several choice lots were taken through the week at 93c. No. 1 club is quiet at 90@92½ for dry samples. The receipts of winter wheat are very moderate, and consequently there is little doing in this article. The range for red and white is 70@80c.

RYE—There is not much rye in the market, and there seems to be an active enquiry for it. Choice lots will readily bring 60c.

BARLEY—Is quite dull and nominal at 55@60c.

OATS—The receipts of Oats have not been large. The demand is quite brisk and prices are tending upwards. We quote in good request at 26@27c.

CORN—Quiet at 30@35 in the ear, and 35@40c shelled.

TIMOTHY SEED—In good request at $1,25@1,50 for best quality.

POTATOES—Are dull at 20@35c.

EGGS—In better request at 8@10c.

BUTTER—Dull at 12½c in firkins.

DRESSED HOGS—Very few have come in during the week. The packing season has closed. What were in the market have been taken at $6 by retail dealers.

HIDES—Are not in active, and prices have declined some since last week. Green Hides are quoted at 5@6½ and dry 8@11c.

SHEEP PELTS—Range from 12½ to 75c.

OILS, BURNING FLUID, &c.

Lard and whale oils have declined a trifle since our last review. We are indebted to Messrs. Bosworth & Sons, wholesale Druggists, for the following quotations:

Linseed oil 75c by the bbl; lard oil 90c do do; bleached winter whale 85@90c do; alcohol 45c do do; camphene 75c do do; spts. turpentine 70c do do; burning fluid 50c do do.

THE LUMBER TRADE.

We are indebted to Messrs. LUDINGTON & CO. for the following list of present Retail Prices for Lumber:—Clear plank $40,00, do board 30,00, second plank 30 00, do board 25.00 third board 20,00, clear siding 20 00, second do 17,00, common do 15,00 clear dressed flooring 28,00 common do 22,00, third quality 18.00, common board 13,00, joist and scantling 13.00, fence boards 13,00, do 12 ft 11, warranted shingles 3,50, lath M ft 3,00.

THE LIQUOR TRADE.

The Liquor trade has not been active during the past winter. It is improving, however, toward the approach of spring. Messrs. Baker & Isham quote:

Whisky at 18@19c ₩ gallon Champagne—Heidsiek & Co., $36 for qts, $17 for pts. Eugene Cliequot $36@37 Hostetter's Bitters per case $7,50; Wolfe's Schnapps $6.

THE GROCERY TRADE.

Since our last report there has been a moderately active trade in the staple articles, and a considerable further advance in Hhd Sugars and Molasses. New Orleans Sugars are fully ½c highee, and Molasses 3c. Our last advices from N. O. report that the market is in a very excited state, prices having attained a point at which shipments to Northern ports could not afford to purchase—the supplies coming in, however, having been readily disposed of to Western purchasers. From present prospects it would appear that on the opening of navigation our lake markets can be best supplied from the East, as crops in the W. I. Islands are reported good, and already the product of the present season is arriving freely at N. Y.

Refined Sugars are ¼c higher, as seen by our quotations. No change of importance in other qualities. We quote:

Loaf Sugar double refd 12½, crushed do do 12, crushed C 11¾, powdered sugar, double refined 12; powdered C 11¾, refined white C 10¾, do yellow A 9¾, do do B 9, Golden Syrup, in bbls, 70c, do in 10 gallon kegs 80c.

GOODRICH & TERRY,

CATTLE AND PROVISION MARKET.

Messrs. Layton & Plankinton, of the Bull's Head Cattle Market, report that the Pork season has about closed.—Very few dressed hogs are coming in; what has been in the market during the week were mostly taken at $6 by retail dealers. There have been but few cattle in the market, and few wanted. Several lots have been taken at $2,25 to $3,25.

Provisions are firm; there have been several sales during the week; 180 bbls Lard 9¾c, 80 bbls Mess Pork $15, 100 bbls extra Mess Beef $10, 50 bbls Beef Hams $15. They quote prices for small orders:

Heavy Mess Pork $15,50 Mess Beef $10, Lard by bbl 10c, Smoked Hams, sugar cured, 10c, Smoked Shoulders 7½c. Soap and Candles unchanged.

FURS.

A. A. Gardiner, of Wisconsin st., furnishes us with the following market prices of furs:

Raccoons 50 to 75c; Mink $1 to $1,50; Muskrat 10 to 12c; Red Fox $1 to $1,00; Cross Fox $4 to $5; Otter $8 to $9; Fisher $8 to $9; Lynx $3,50 to $3,50; Bear $5 to $10; Cub Bear $3 to $5; Wild Cat 50 to 80c; Beaver, ₩ D, $1 to $1,50; Wolf 50 to 75c; Lynx $1,50 to $2; Badger 30c; Shaved Deer, ₩ lb, 30c; Red and Blue Deer 15c; Grey Deer no sale.

MONEY MARKET.

BANKING AND EXCHANGE OFFICE OF BRIGGS SHEPPARD,
265 EAST WATER ST., MIL., March 20, '58.

Money still continues to be in demand, with a fair supply on first class paper. Rates are the same as heretofore, that is 8 ₩ cent. on short time, and from 1½ to 2 ₩ cent. on long notes. We occasionally receive for investment on 8 or 5 years sums to be loaned at 12 ₩ ct. ₩ annum, but as yet those cases are rare. Lenders of money will not place their cash on 12 ₩ cent. when a prudent course will rent them from 2 to 3 ₩ cent. ₩ month on short time. Our Spring is now advancing with favorable weather, and we consider navigation as quite open. The numerous vessels in our harbor are fitting themselves with all speed for the Summer's work, and several have already left our ports. It only remains for the clearing of the Straits for us to announce the full sweep of navigation to Buffalo. We anticipate that event at an earlier period than last year. The renewal of the Collingwood line, which was drawn off last year, we look upon as very favorable to our city, as we learn that they design making Milwaukee the head quarters at this end. The full establishment of the above line, together with the completion of our proposed route to Grand Haven, will militate more in favor of the interests of our city than any other Eastern mode of communication. We have too long been blind to our own interests, and have depended too much upon others, and it is high time that we should have notions centering in this port, and which shall be to a great degree under our control.

We still notice the great influx of specie into New York city. Exchange on London has fallen as low as 8½ ₩ cent. within a few days. It is a favorable indication of our decreasing liabilities to our foreign correspondents, and we may look for a still further decline should our breadstuffs be in demand, and our shipments of cotton be as large as usual. Our own domestic exchanges still remain low, and in view of these facts, together with the great abundance of money at the East, we may look for a season of great prosperity, throughout the country for the coming season. Already has it begun to show itself in the increased demand for labor, the revival of trade, and orders continually sent to our prominent workshops and builders. We must congratulate ourselves on having passed the worst of our financial disasters as well as we have, and push forward with renewed vigor to the trials of the ensuing season.

Since the announcement of the intended opening of land offices which we published some weeks since, the demand for Warrants has exceeded the supply in this market. We think a further rise in price will be inevitable. We quote however, to-day, the same as last Saturday:

40's	1,10 per acre.
80's	90 " "
120's	90 " "
160's	90 " "

Exchange on New York—buying ¼c, selling ½c.
Gold buying ¾c, selling 1½c.

CINCINNATI PORK PACKING.

From the Cincinnati *Price Current* of the 17th, we learn that the whole number of hogs packed the past season is 46,617. The *Current* says:

"As regards the comparative weight, we have not been able to obtain from the packers sufficient data to enable us to arrive at any definite conclusion. Those houses which did not commence early show an increase of five to ten pounds to the hog, as compared with last year, whilst those houses which packed through the entire season show no increase, but in some cases a slight falling off. On the whole, we are of the opinion that the average increase is not over two per cent. As regards Lard, in the forepart of the season the yield was below that of last year, but during the last two weeks of December and all January, the yield was better than last year, and the probability is there is a slight increase, say, not over two or three pounds to the hog, as compared with last season."

The following table shows the whole number of hogs packed at Cincinnati for a series of years:

Years.	No.	Years.	No.
1858	46,000	1848	205,000
1854	195,000	1847	230,000
1853	168,000	1846	475,000
1852	128,000	1845	410 000
1851	100,000	1844	628,000
1850	189,000	1843	364,000
1849	190,000	1842	359,000
1840	95,000	1841	351,000
1847	180,000	1854	481,000

1844	240,000	1857	944,019
1845	195,000	1858	446,417

The average price for dressed hogs in that market for the last five Pork seasons are as follows:

The Charter Amendments.

While the *News* does not venture to discuss the proposed amendments to our City Charter, and has not yet denied their propriety, or necessity, it seeks to make capital and to excite prejudice out of the fact, that the Tax-payers' meeting urged the Legislature to pass these *amendments* into a law *at once*, and without waiting to submit them to the popular vote. Taking its cue from Ald. HADLEY, that jealous conservator of Popular Rights, and vigilant guardian of the public interests, the *News* talks to Buncombe, and would fain have its readers believe that to enact any amendments to our Charter, without the popular sanction, would be an unheard-of and unjustifiable outrage. But the public will know precisely what estimate to put upon the pretended anxiety of Ald. HADLEY and the *News* to have the people vote on these amendments, when they remember that amendment after amendment to the City Charter—many of them of vital importance—have been urged through the Legislature and forced upon the city by Ald. HADLEY and his backers, and that neither he, nor the *News* ever proposed, or intended that the People should vote upon them. Most of these amendments increased the expenditures, added to the debt, multiplied the offices, raised salaries, &c.,—all matters of very material consequence to the Tax-Payers—but upon not one of them did Ald. HADLEY or the *News* condescend to consult the People. Now, however, that it is proposed so to amend our Charter as to *retrench* ONE HUNDRED *superfluous offices*; to reduce all salaries from 50 to 76 per cent.; to cut off at least *seventy-five thousand dollars* in the annual city expenditures; to limit the Annual Tax to $175,000; (instead of the $425,000 imposed upon us this year) to make it a *felony* for any Alderman or City Officer, to be engaged in *contracts* for city work; to do entirely away with the present expensive, corrupt, unfair and inefficient system of opening, grading, paving streets, alleys, and public grounds; to abandon the present unequal and unreliable mode of Assessment, and substitute one that will secure a fair Valuation and equal Taxation; to strip the office-seekers and demagogues in our midst of the power they have hitherto enjoyed and which they have abused to plunder the Tax-payers, beggar the Treasury and bankrupt the City—when these and kindred measures of stringent and practical RETRENCHMENT and REFORM are proposed, Ald. HADLEY and the *News* take a sudden alarm and want time for the People to consider and vote upon the propositions.

Well, THE PEOPLE *have done so*. The amendments have been published in every newspaper of the City. They have been subjected to the close and patient scrutiny of two able Committees, of opposite political views, and appointed by antagonistic influences. They have obtained the unanimous assent and approval of these Committees. They have, no doubt, been carefully read and considered by the great bulk of the tax-payers of our city, and on Thursday evening they were formally voted upon and triumphantly ratified by the largest public meeting ever held in Milwaukee. They have received, therefore, the popular sanction in the most direct and unqualified manner.

Now what more do Ald. HADLEY and the *News* want? Why they want an additional section, to submit these Amendments, after they are enacted by the Legislature, to the popular vote, at an election to be held some weeks hence, when, if adopted, they may go into effect 20 days thereafter. But that will carry them bye *the next Charter Election*, and thus, *for a year to come*, the People will be cheated of Reform, and the City left a prey to the official locusts for another entire season. DELAY, not *Reform*, is the object of Alderman HADLEY's move, and the People understood it perfectly well when they voted down his proposition last Thursday night. If the Legislature would give us relief and deliverance from our Municipal sufferings and oppressions, let them, without delay, pass the CHARTER AMENDMENTS.

The Investigation.

The *News* seems not to be pleased with the progress of the Legislative Investigation at Madison, and since, contrary to its hopes and expectations, ex-Gov. BASHFORD has returned to this State and is now at Madison, ready and willing to go before the Committee and tell all he knows, the *News* begins to make difficulties. In one breath, it charges that ex-Gov. BASHFORD will not be allowed to testify before the Committee; in the next it insists that he ought not to testify; and in the next, insinuates that Gov. RANDALL and other prominent Republicans don't want him to testify, lest he make disagreeable revelations. By way, moreover, of giving some significance to this inuendo, the *News* adds:

We have heard that J. H. Tweedy, Esq. Hon. John F. Potter, and Mr. Hans Crocker, are among the individuals who fear most.

Now we undertake to say that none of the gentlemen named "fear" at all, or make the slightest objection to the fullest and freest Investigation. And as for ex-Gov. BASHFORD, their wish and desire is—in common with all Republicans—that he may have every opportunity, before the Committee and the public, to meet and answer each and every charge that has been made against him, and to detail every circumstance within his knowledge, connected, directly or remotely, with the disposition of the Land Grant.

THE EARL OF DERBY.—The new head of the English ministry commenced his parliamentary career in 1820, being then but twenty-one years of age, and displayed parliamentary talents never excelled at that age, except by William Pitt.—He was a member of the cabinet of Earl Grey, in 1830, as Secretary for Ireland. He subsequently abandoned the whig party, and took office under Sir Robert Peel. The conservative ministry was abandoned in 1846, but was immediately brought into power again; but Stanley was promoted to the House of Peers, as Baron Stanley, of Bickerstaffe. In 1851, upon the death of his father, he became Earl of Derby.—On the defeat of Lord John Russell, he became Prime Minister—a place he was compelled to yield on the last accession of Lord Palmerston, who, in the mutations of parliamentary politics, now gives way to him. He is fifty-nine years of age. His son, Lord Stanley, who is also a man of talent, has been Colonial Secretary.

MORE LAND GRANT CORRUPTION.—The St. Paul *Minnesotian* is after Jackson Hadley of Milwaukee. He is accused of bribing the members of the Legislature. Four hundred thousand dollars in bonds have been charged to him by the La Crosse Co., and he says a large portion of them were used in St. Paul. The *Minnesotian* enquires "what they were used for, and who got any?"

ANOTHER VICTORY.—Syracuse, the hot bed of Abolitionism and Republicanism, has elected the Democratic candidates by 200 majority. This is a good sign.—*Prairie du Chien Courier.*

Syracuse is a strong democratic town, and last year elected Democratic town officers by nearly 400 majority; this year the democratic majority is reduced to 200. We are glad the *Courier* is pleased with this "sign." Onondaga County (in which Syracuse is situated) for so many years one of the staunchest democratic Counties in New York, elects this year 15 Republican to 12 Democratic Supervisors.

Gov. Seward's Speech—The Sentiment at the Capital.

WASHINGTON, March 18.

I was not here to listen to Gov. Seward's speech, but am here in time to hear its gratifying echo.

I need not say a word about its eminent ability, its comprehensive scope, its far-reaching sagacity, its philosophic tone, its radical doctrines, its hopeful spirit. Nor shall I speak of its majestic diction, its panoramic sketch of events in Kansas, its thorough exposure and eloquent denunciation of the sophistry, the inhumanity and unseemingly political intermeddling of the Supreme Court, in the Dred Scott case. All this is plain to such as read the speech.

My purpose is simply to note the state of opinion at the Capital in respect to this effort of our Senator. Suffice it to say, that all classes of persons here regard it as the ablest effort of Governor Seward's Senatorial speeches. One or two of his other efforts may, perhaps, have shown more elaborate research; or one or two may, possibly, have exhibited greater rhetorical finish in some of their passages. But, none has called out such hearty, such universal testimonials to its fitness to the times, and its superiority when measured by current standards; and certainly none has produced so deep an impression on Northern men and Southern men, on friends and opposed, as this.

A word more. I need hardly say, that this speech has dispelled the haze which for a moment seemed to hide from some eyes the Anti-Slavery reputation of Gov. Seward. No person who knew anything about the mental and moral nature of William H. Seward, ever could dream that he would change his principles or policy respecting Slavery, unless it were to become more radical in doctrine, and more determined in action. The most prominent trait in his character, is *fixedness of purpose*. For twenty years, I doubt not he has felt more about Slavery, than any one subject besides; and during that period he has been distinguished among political men for the consistency of his Anti-Slavery career; and, in order to occupy the position where he now stands, in the very van of our Great Battle, he has had to change less in these twenty years than any other leading statesman in the country. Indeed, in his celebrated contest with the Virginia Governors, while he occupied the Executive Chair of New York, he advanced and maintained doctrines which constitute the foundation of the Anti-Slavery enterprise.

Change his course! None of his enemies ever dreamed it. Why should any of his friends suspect it? Who that knows him doubts that he clings to his Anti-Slavery frame far more firmly than to all the reputation, past, present and prospective which he has or can acquire in any other cause or enterprise in which he has or may participate? Who doubts that, in the far off future, generations of men will revere the name of Seward, one of the Liberators of the American slave, who will never know that he was the patron of general education, the advocate of universal suffrage, the opponent of imprisonment for debt, the champion of valuable reforms in the civil and criminal codes, the promoter of vast schemes of internal improvement by land, by river, by lake—that he was a distinguished Governor of the first of American States, and long its eminent Senator in the National Congress?

A QUICK TRIP.—In an extract from a letter from a passenger who left New York on the 5th of February last for San Francisco, in the steamship Moses Taylor:—

"On board ship Golden Age,
Acapulco, Feb. 19.

We are at this place in the unprecedented short time of two hours less than fourteen days, after one of the most pleasant and agreeable trips I ever experienced. We shall be in San Francisco very probably in twenty-one days from your City."

PLUNDERING THE TURK.—A Washington correspondent of the Daily *Times* writes: "Mohammed Pasha arrived to-night. I understand that he had not been at Willard's Hotel twenty minutes before his room was broken open, his trunks ransacked, and their contents strewn about, and his carpet-bag cut fairly in two.—Two thousand dollars in gold, and a crown set with gems, worth as much more, were undiscovered by the thieves." The Turk, after his experience of the New York Councilmen and the Washington thieves, will begin to want to get out of this Christian country as quickly as possible.

THE WISCONSIN RIVER OPEN.—The *Badger State*, published at Portage City, in its issue of the 19th instant says:

The ice had entirely disappeared from the Wisconsin River yesterday morning, as far as could be seen from the windows of this office. The Pinery boys will soon make their appearance.

☞ The police of London, have detected a new burglar's instrument of the most extraordinary description. It will cut through solid iron half an inch thick, a hole six inches in diameter, in an hour, and without making the slightest noise or sound, or refitting the tool for an immediate repetition of the experiment.

THE SUMNER COURT-MARTIAL.—The New York *Times* learns from a reliable quarter, that the recent Court Martial upon Col. Sumner, at Carlisle Barracks, was the *acquittal* of Col. Sumner upon both of the charges preferred against him by Gen. Harney. This result no doubt will be high, ly gratifying both to the country and to the army. It is said the court deliberated less than fifteen minutes before agreeing to a verdict.

A CHESS CHALLENGE.—The New Orleans Chess Club, on behalf of Mr. Morphy, the American Champion, who bore off the honors and the victory at the American Chess Congress in New York, have sent a challenge to Mr. Howard Staunton, the chess editor of the London *Illustrated News*, to play a match in New Orleans, the present year, for $5,000 a side. The match to be decided by the winner of the first eleven games, and not over thirty minutes to be given for deliberation on any move. Mr. Stanton is the acknowledged champion of Europe.

☞ James Odier, the banker, father-in-law to Gen. Cavaignac, has put an end to his own life by strangulation. His deficit was 5,000,000 francs. This family, originally jewelers, have had some very tragic occurrences already in their house, such as a mysterious murder in their residence on the Boulevards some thirty years ago, on which occasion this banker's father quitted that mansion forever and built a superb palace in the Champs Elysees, Rue de l'Oratorie, now inhabited by Lady Harriet Spencer, late Countess d'Orsay.

Mattesons's Case.

WASHINGTON, March 19.

The Washington correspondence of the Times says that the Select Committee on Matteson's case, will report against his expulsion, probably to-morrow.

THE GUILLOTINE.—Last evening Henry S. Fitch, Esq., received, we learn, his commission as U. S. District Attorney, for the Northern District of Illinois, *vice* Augustus M. Herrington, Esq., removed.

Ald. Philip Cooly arrived from Washington yesterday, bringing his commission as Port Collector, *vice* Gen. Fry removed.

The news of these appointments, and the numerous changes made by Mr. Cook in the Post Office, caused no little excitement among those who so recently shouted "We are all Democrats," and squads of the harmonious Democracy were congregated on the street corners discussing the startling events of the day, and the chances of those who are still "head on."—*Chicago Tribune.*

☞ Recently, one of the most renowned French pulpit orators, the Abbe de Deguerry, observed in a sermon:—"Women, now-a-days, forgot, in the astonishing amplitude of their dresses, that the gates of heaven are very narrow."

RAPID SKATING.—A correspondent of the *Spirit of the Times*, says a lad named Delano, skated from Ottawa, Illinois, to Marseilles, a distance of 8 miles, and back, in 55 minutes—on a bet that he could not do it in one hour and a quarter.

HEAVY CONTRACT.—The *Times* learns that the government has entered into a contract with Thomas Dyer, John Frink, and General Singleton, of this State, and Mr. Sanger, of St. Louis, for furnishing the army with horses and corn during the year 1858.—*Chicago Tribune.*

☞ The Dunleith *Advertiser* says that an engineer on the Illinois Central Railroad, named Smith, has discovered, in looking over his wife's papers, that she is heiress to property situated in Vincennes, Ia., valued at over $100,000.

Six Thousand at a Prayer Meeting.

From the Philadelphia North American, March 18.

If ever, since Paul traveled the road to Damascus, the direct voice of Heaven audibly called sinners to repentance, that voice may be heard at the Union Prayer Meeting, now being held at Jayne's Hall in Chestnut street. Our reporter again visited the Hall yesterday, and found that, so far from diminishing, the interest is increasing; and that, too, without any excitement, any taunting, or any of those boisterous demonstrations of penitence or rejoicing which we sometimes find, during revival seasons, among the illiterate and unenlightened.

Before going any farther, however, it may be news to a good many if we show how this prayer meeting was first organized. It was originated by a young man, under twenty one years of age, but a very Timothy in point of zeal for the service of his Divine Master. This youth was in New York at the time when the first "Business Men's Prayer Meeting" was opened. He thought that as good had resulted there, a similar movement in Philadelphia might also share God's blessing, and be instrumental in the conversion of many souls.

Having succeeded in interesting several other persons, they applied to the trustees of the Central Methodist Church, corner of Fourth and Arch streets, for the use of the meeting house. Their wish was cheerfully gratified, and the meetings were conducted every day at noon, the attendance averaging only from twenty to thirty persons—never higher than thirty six. The meeting was commenced on November 23d.—The pastor of the church feeling, perhaps, that he ought to have been consulted in the matter—a fact which the young man had overlooked—objected after a time to the further use of the church, when application was made to Dr. Jayne for the ante room to his spacious hall. Dr. J. being a Christian man, complied instantly with the request, and on February 3d, the first meeting was there held. The dews of Heaven, in answer to the earnest application of the participants, fell upon the meeting, and the interest gradually increased, until now not less than six thousand persons each day spend from five to sixty minutes each, at the hour of exercises in this Union Meeting.

The scenes of the occasion yesterday were awe inspiring and impressive. The congregation was the largest we have yet seen there, while the exercises were even more spiritual in their character than before. The audience comprised mainly business men, clerks and ladies.—Many of the latter appeared to have stepped in from motives of curiosity, as they carried bundles—the probable results of a shopping tour.—Yet in the whole vast audience we did not witness the smallest demonstration of levity or thoughtlessness after the brief but solumn opening prayer had been made.

The prayer closed, two verses of a hymn were sung to an old but familiar Methodist tune, such as we have not heard before since our childhood. The hymn was this:

Rock of ages, cleft for me,
Let me hide myself in thee!
Let the water and the blood
From thy side a healing flood, &c.

The effect of this simple harmony, swelling from the uplifted voices of three thousand earnest people, was electrical, and utterly beggared the meretricious, semi-operatic music that has so lamentably displaced congregational singing in many modern churches.

The leader then said he wished it distinctly understood, that if there were any persons present who desired like blind Bartimeus to receive their sight, if they would signify it by holding up their hands, they would be prayed for by the congregation. About twenty persons—that we could see—responded by elevating their right hands. Several of these were ladies, two of whom our reporter saw giggling as they entered the hall just in advance of him. They had parcels in their hands at the time, and apparently came to the place "to laugh," although they remained to pray. The prayer that followed—we do not know who offered it—was a most fervent supplication; lifting up the penitents upon the arms of love and faith to meet the descending blessing. It was a prayer couched in language at once earnest and simple—just such language as a guilty man should use when addressing his Creator, and not the language of a prize essay of high sounding oration as we find many prayers.

The 216th hymn followed, beginning—

Plunged in a gulf of dark despair,
We wretched sinners lay,
Without one cheerful beam of hope,
Or spark of glimmering day.

Alternate prayer and exortation following until one o'clock. As soon as a speaker had taken up the allotted five minutes, a bell was struck as a signal to cease, such being the rule of the meeting. At its close, it was announced that any persons desired special instruction or counsel, any minister present, would receive and converse with such persons in the area behind the platform. Some forty or fifty persons acted accordingly.

BEAUTIFUL WEATHER.—Every exchange we pick up now-a-days contains a eulogium upon the state of the weather. Spring is fairly upon us, and the gentle season has come so suddenly, and we may say unexpectedly, that all appear to be overjoyed with its appearance. The following from the Monroe *Sentinel* is a fair specimen of the numerous weather articles which our country exchanges have contained for the past week:

"The warm south wind has drawn the frost out of the ground, and the timid bud swells in humble acknowledgment of the Divine power that doeth all things well.

We have observed for a few days that the bees were out exploring for sweets and enjoying the change of the seasons. The spring birds are also coming among us.

The "plastic mud" of Monroe never appeared in richer profuseness than at the opening of the present week, and pedestrians sigh for the charter election and the sidewalks that are to follow in its train."

Our Monroe friend very judiciously winds up his weather article in this wise:

"March is a fickle month, and may finish its career on the calendar, in a furious storm of snow-flakes Expect anything and be disappointed at nothing."

EMANCIPATION IN MISSOURI.—The following is an extract from a private letter of a distinguished citizen of St. Louis:

"Our State is fast filling up with a hardy race of farmers and mechanics from the free states, whom the agitation of the emancipation question here, and the excitement about Kansas Slavery, have attracted westward. It would seem that the only good that can possibly arise from the course of James Buchanan and his Cabinet in Kansas matters, is to send a flood of emigrants into our State and Kansas; the result is that those farmers who came here from Virginia, Kentucky and Tennessee, with their slaves, after wearing out the soil of their farms in those States find that their property is the most unsafe, as well as unprofitable, they can have. So they send away hundreds of slaves every little while South, selling them for gold. Thus they are enabled to pay their store debts in gold, which accounts for so much of this commodity being in circulation in our State.

"Thus you perceive the good cause of Emancipation is steadily progressing. As each farmer gets rid of his slaves he directly becomes an earnest convert to the emancipation cause, and forgets all the arguments he used before of wrong to the slave owner; having got rid of his slaves he wants his neighbors to do the same. I firmly believe that a majority will be returned to the next Legislature in favor of an amendment to our constitution, so that laws can be passed for the gradual emancipation of Slavery in our State."

AN UNFORTUNATE MISTAKE.—Yesterday Dr A. T. Hollberg, discovered that he was short $1000 in Harbor money. The money had, as he supposed, been abstracted from his desk, and his suspicion fell upon his clerk, a very worthy young man, who had hitherto stood high in the estimation of the the Doctor. The clerk denied having taken the money, but the doctor had him arrested and kept in custody all night. This morning the missing money was discovered by the Doctor in his letter press, where he had himself placed it the day before but which event he had forgotten. The wrongfully suspected clerk was immediately sent for, and the doctor offered to make to him every reparation in his power.—The mistake was an unfortunate one, but all parties concerned should felicitate themselves on its having been discovered so early.—*Dubuque Times.*

THE MISSISSIPPI—EARLY NAVIGATION.—The Prairie du Chien *Courier* of the 18th instant says:

The river at this point is free from ice, and the ferry boat "Alex. McGregor" is making her regular trips across to the Iowa shore. We expect a boat up every hour—the "Itasca" will be the first one up, probably. Last year the first boat reached here on the first of April. Welcome the resume of navigation.

An Indiana Senator Absconded.

"True patriot, he—for, be it understood,
He left his country for his country's good."

John Slater, Senator from Johnson county, is *non est inventus*, to speak plainly, he has vamoused the ranche—cut stick—runaway—absconded. Difficulty in meeting certain pecuniary liabilities of a pressing nature, and some personal delinquencies of a delicate character, are assigned as the cause of his sudden exit. It leaves a vacancy in the Senate, to be filled at the next election. He is an old liner, and there is some probability that his successor will be a Republican.—*Lafayette Journal.*

The Chinese New Year.

From a California paper.

The Chinese New Year came upon the 18th of February, and they celebrated the occasion with great spirit, and they kept up their jollification for four or five days. During that time the whole State has been agog at the unparalleled consumption of fire crackers and the brilliant display of fashionable foggery in the streets. On New Years Day the Chinaman pays up his debts, if he can; and if he cannot the rich creditor forgives his debts and embraces his unfortunate debtor to show that the forgiveness is a cordial one. Visits of ceremony are paid to all acquaintances; the women being more attentive to their duties of calling on this day than the men. The Buddhist house of worship in this city was open during the festival, and was visited by great numbers of the Celestials, but by few Americans. The Chinamen not wishing to have their ceremonies laughed at by the barbarians, did not invite them to be present.

The Chinese are hated and despised and ill-treated by most of the Californians, with whom they come in contact; but I am not one of those who delight in kicking a man because he has no friends, and I like to hear a good word of 'John' occasionly; for really as a mass of multitude he is the most orderly, humble and industrious person in this community. The itemizer of *The Alta* speaking of their New Year's celebration says:

"No one could have visited them during their New Year's festivities, and seen their manifestations of brotherly feeling and regard one to another—seen the creditor come forward and take his debtor kindly by the hand, and raise his head, and bid him cheer up, for the future might still be bright before him; and that all his indebtedness was wiped away, and the books balanced with the setting sun of the old year; and seen, too, their fond remembrance of dead friends, whose names were called up in reverence; and after the fashion of their nation, in every house from whence some relative or friend had gone to join the silent army of the dead, there was a little table spread, and a bequet of the choicest delicacies prepared in memory of that departed one, and incense and a lamp of scented oil was burning constantly—no one who visited them, and saw all this manifestation of more than Christian charity and reverence, can doubt for a moment that the poor, despised John Chinaman possesses, in some degree at least, all those higher and holier feelings of humanity which ennoble the race, and which Christian civilized communities arrogate to themselves and deny him the possession of."

A STEAMER AND U. S. MAIL LOST.—A letter dated Talcahuano, Chile, January 14, 1858, says:

In consequence of the loss of the British Mail steamer, Valdivia, belonging to the Pacific Steam Navigation Company, running between Valparaiso and this port, carrying the mail and passengers, (which took place on the morning of the 11th December, by striking upon a rock, about one hundred miles North of this port,) the whole American mail for points South of Valparaiso, was lost—not a letter or paper was saved. Passengers and crew, with a portion of the freight, were saved. The Valadivia had on board all the American mail matter which left the United States between the 5th of October and the 5th of November last. Our community has been in suspense in regard to the loss of the mail during the last fifteen days or more, but by the last arrivals from Valparaiso, and the land mails via Santiago, all doubts are removed—no portion of it was saved.

ST. LOUIS, March 16.

The Leavenworth correspondent of the Leader says that the free State vote for delegates to the convention in that city was 750, against 1,196 for the State officers on January 4th.

NEW AND ACCURATE
TOPOGRAPHICAL MAP
OF
MILWAUKEE COUNTY, WIS.,
FROM
Instrumental Surveys throughout the County.

THE SUBSCRIBER is preparing to publish a new and complete

Map of the County of Milwaukee,

Made from *actual measurement* with instruments, by several Surveyors, under the direction of H. F. Walling, Civil and Topographical Engineer. The map is to be drawn on a very large scale, covering nearly

TWENTY-FIVE SQUARE FEET

Of surface. All the Public Roads and Railroads are to be accurately laid down, with the location of Farms, Public Buildings, Places of Worship, School Houses, Mills, Dwellings, Hotels, Villages, &c., and the names of property owners inserted in their proper places, with the number of acres in each farm, &c. A large

Extra Map of the City of Milwaukee,

Showing all the Lots as originally laid out, with the Public Buildings, Hotels, Churches, School Houses, Ward Lines, &c., &c., accurately laid down, will be added to the map. Also, extra plats of the principal villages in the County, showing the Lots and Buildings on an enlarged scale, and giving every property owner's name attached to his property. Vignettes of some of the PUBLIC BUILDINGS, &C.

Will be given on the margin.

The whole will form a Map of NEARLY FIVE FEET SQUARE, and will be engraved in superior style by some of the best artists in New York. It will be handsomely colored, mounted on rollers, and handsomely finished and delivered to those who may have ordered copies, as early as may be practicable.

☞ Price $5 per copy, without variation.

No. 20 Fulton street, New York.

RECOMMENDATIONS.

The following distinguished gentlemen have recommended various Maps prepared by H. F. Walling, whose reputation as a Civil and Topographical Engineer is well established in the Eastern States:

Hon. N. P. Banks, Governor of Massachusetts.
" Emory Washburne, Ex-Gov. "
" Geo. N. Briggs, " "
" Edward Kennedy, " "
" Geo. S. Boutwell, " "
" Chas. Sumner, U. S. Senator, "
" Rufus Choate, " "
" Henry W. Clapp, " "
" Jared Sparks, President of Harvard University.
" W. W. Hilmont, Ex-Governor, Connecticut.
" J. H. Seymour, " "
" Joseph Trumbull, " "
" James Dixon, " "
" Elisha Dyer, Governor of Rhode Island.
" W. W. Hoppin, Ex-Gov. "
" H. D. Anthony, " "
" Philip Allen, U. S. Senator, "
" Jas F. Simmons, " "

We, the undersigned, having examined the Map of Milwaukee County, with the Map of the City, &c., to be added to it, take pleasure in recommending it to the favorable notice of the citizens, as eminently worthy of patronage. It seems to have been prepared with great care, and is very full and complete. The price is very low, and no person owning property in the County should fail to procure one.

MILWAUKEE CITY DIRECTORY
AND
COMMERCIAL ADVERTISER,
FOR 1858-59.

CONTAINING THE NAMES OF THE INHABITANTS in their business, or trade, place of business, and residence

A GENERAL BUSINESS DIRECTORY

Of the entire city, in which every branch of business, profession and trade will be alphabetically arranged, and classified under each appropriate heading.

A STREET AND AVENUE DIRECTORY,

Embracing a correct list of every street, lane, alley, and Avenue, where each commences and terminates, and when numbered, the odd and even numbers on each side and corner.

A CITY RECORD,

Replete, relating to Banks, Insurance, Railroads, and other Incorporated Companies, Courts, Churches, Public Institutions, Societies, &c., &c.

Together with the ADVERTISEMENTS of Merchants and Manufacturers.

☞ The subscribers will publish the above Directory on the 15th June next.

☞ The canvass for the names cannot to insure accuracy, be commenced until May 1st, after which removals and changes have been made for the present year, but the canvass for other information necessary to be compiled will be commenced on the 1st of April.

☞ By a reference to the Prospectus you will see that we purpose in addition to the more Directory of names to add a general BUSINESS DIRECTORY; also a complete STREET AND AVENUE DIRECTORY and CITY RECORD. Another feature is, in connection with each firm a name we give the name of every individual member of the firm, for example: Smith, Brown & Co., (J. Smith, Wm. Brown and O. J. Day) Dry Goods, 83 East Water St.

☞ We flatter ourselves from our long experience, (having been engaged as Directory compilers in New York for the past 10 years,) and from our mode of canvassing, which is, to visit every dwelling house and store, and to take every name in a separate slip of paper, and in ink, (thereby obviating the necessity of recopying the same), without the least reference to ANY PREVIOUS PUBLICATION, that our book will prove to the most reliable work of the kind ever presented to the Milwaukee public.

☞ Many persons object to advertising in a Directory. This objection will at once be annihilated, when it is known that the VITALITY of the undertaking dependssolely upon its advertising patronage.

It is well not be amiss here to remark that ours is a home enterprise. No advertisements of Eastern Houses will be solicited, believing thereby to be able to support her own institutions, and, that we do not err in our judgment we hope to be able to point to you in our forthcoming work a sufficient number of advertising pages to corroborate our assertion beyond all peradventure.

The Book will be of octavo size, handsomely printed and well bound.

☞ Advertisements will be inserted on tinted pages conspicuously displayed, at reasonable rates.

☞ Subscription price of the Book, $2 00.

☞ Each of our Canvassers will be provided with a specimen book.

Mohammed Pacha's Disappointment with Judge Taney's Decision.

From the New York Post.

It is reported, with what truth we do not undertake to say, that the Grand Turk whose arrival in this country is the subject of prevailing interest in town at present, is quite disappointed to find that the decision of the Supreme Court in the Dred Scott case is not understood here as he understood it. From Judge Taney's decision, which he had carefully read in an Arabic translation, at Constantinople, he had satisfied himself, and upon no other terms would he have accepted the commission to visit America, that he would be permitted the fullest enjoyment of the "peculiar institution" of this country while traveling in this. He finds, however, that no one here seems to place the same construction upon the Judge's opinion that he has done, and that the only "peculiar institution" which, thus far, seems to have taken the benefit of it, is slavery. He is very much disgusted with this state of things, and is going on to Washington Monday or Tuesday, to see the Judge about it. Meantime, he has resolved to get the opinions of Charles O'Conner, F. B. Cutting and R. J. Dillon, as to his rights under the ruling of the Supreme Court, and their advice as to how far he will be justified in buying public opinion in New York, provided they hold that his construction of the decision was a correct one.

☞ A correspondent of *The Alta*, writing from Sacramento, says:

"A letter was received in this city yesterday, by Mr. Stovall a merchant on K street, giving late and important intelligence from Brigham Young's dominions. The communication is written by a young man formerly a resident of Sacramento, and who was excommunicated from a church here on account of espousing the cause of the Mormons. He states that he is now private secretary to Bro. Amasa Lyon, and dates his letter from the Great Basin, about 200 miles this side of Cedar City. This letter I have not seen, nor am I able to procure it; but understand it states that the Mormons have formally shaken off the shackles of Uncle Sam, and declared themselves free and independent of our Government. Whether they have pledged themselves, their wives, fortunes and sacred honor to the maintenance of their cause, is not stated. The news is down to the 27th of January, that being the date of the aforesaid letter."

☞ An execution for murder took place under singular circumstances, at Monterey, on the 19th inst. A Californian had been sentenced to death under the name of "Jose Anastasio." The Governor granted a respite for one month to "Anastasio Jesus." The meaning of the respite was clear and the Sheriff refused to hang the man. But the people were determined that he should be hung; not less than fifty murders had been committed in the county during the last ten years, and they have never had legal execution, and they would not be cheated out of this one. So it was managed that a Deputy Sheriff, who was in favor of the hanging, should take possession of the jail and prisoner; and who declared that a respite for "Anastasio Jesus" was no respite for "Jose Anastasio." The result was that he was hung.

☞ A correspondent of the San Francisco *Bulletin*, writing from Visalia, says a person living at that place lately ate by mistake some bread and meat on which there was a large amount of strychnine—enough to kill ten men—but escaped without injury by catching a rat hog and eating from the live animal as much of the fat as he could stuff down. He took the hog because he had heard that fat pork was good and the live animal was the only pork he could get.

☞ Mynheer, do you know what for we call our boy Hans?

"Do not, really."

"Well I will tell you. Der reason we call our boy Hans, it ish his name."

Manitou City Town and Land Company.

A. B. PAUL, one of the proprietors, is now in this city for the purpose of securing machinery for mills, &c. All persons contemplating moving West early in the coming season, are cordially invited to call and examine our plans, maps, &c., at the American House. A good opportunity is also offered to mechanics and tradesmen of all kinds, to secure—"even with limited means"—good homes in one of the richest valleys of the Northwest.

See pamphlet containing sketch, &c., of country adjacent, and plan of the proprietors in building up an important point on the Sioux River, Iowa. We want actual settlers. Call and see us and talk the matter over. dec230dif

DISSOLUTION.

THE CO-PARTNERSHIP heretofore existing between the undersigned under the name and style of BAKER & ISHAM, is this day dissolved by mutual consent.

All persons having claims against the firm, and all persons indebted to said late firm will call and settle with F. Ray Isham, W. H. Patten, and E. G. Black, who are alone authorized to make settlements and collections, and continue same in liquidation. E. D. BAKER,
F. RAY ISHAM.

Milwaukee, March 20th, 1858.

The undersigned will continue the Importing and Jobbing Liquor business, under the style and firm of ISHAM PATTEN & BLACK, at the old stand of Baker & Isham, 70 East Water St. F. RAY ISHAM,
WILLIAM E. PATTEN,
EDWARD G. BLACK.

My health being such as to compel me to retire from the firm of which I have been a member for many years past, I cannot take leave of my customers, Isham, Patten & Black, without cheerfully recommending them to the confidence of the public, feeling that those who may have dealings with them, will find them to be men of character and integrity.

I would bespeak for them a continuance of the liberal patronage with which I have been favored.

FARMS! FARMS!! FARMS!!

FIVE HUNDRED ACRES
—OR—
FIVE TIMBERED LANDS,
From 2½ to 5 Miles from the City.

THE SUBSCRIBERS will sell or exchange for productive Real Estate in this city, some of the best *Lands* in the vicinity of Milwaukee. Said lands lie upon *good roads*, and can be conveniently divided into *small farms* of 20, 30 or 40 acres each. One hundred acres *superior quality*, and the timber is of the most valuable varieties, and is worth the price at which the land will be sold. If required, these lands will be sold in lots of 20 acres and upwards.

Persons in want of *Real Estate* would find it to their interest to call and examine our lands before purchasing elsewhere. We are confident we can offer them inducements.
